

Public cloud leaders prevail in the Windows market segment of the Infrastructure as a Service Market

Worldwide Windows Public Cloud IaaS Instances by Cloud Provider, 2017

Note: Includes Windows instances deployed in the public cloud IaaS market during 2017
Source: IDC estimates, 2018

IDC estimates that AWS accounted for approximately 57.7% of total Windows instances deployed in the public cloud IaaS market during 2017, followed by Microsoft Azure at 30.9%. The rest of the market collectively accounted for the remaining 11.4% of Windows instances deployed in the public cloud IaaS market during 2017.

IDC notes the Windows public cloud IaaS market continues to expand due to the growing usage of public cloud IaaS among enterprises and the movement of Windows workloads into public cloud IaaS.
