

AWS Podcast Extended Show notes for Episode: 638

Topic || AWS Marketplace

[AWS announces general availability of Amazon Aurora MySQL zero-ETL integration with Amazon Redshift](#)

Topic || Analytics

[Glue Studio Visual now supports interactive data previews](#)

[Amazon Redshift launches MaxRPU, a new compute cost control setting for Redshift Serverless](#)

[Database Activity Streams creates Kinesis data streams in on-demand mode](#)

[QuickSight launches FLOAT data type support for SPICE datasets](#)

[Amazon MSK adds check for too many partitions to AWS Trusted Advisor](#)

[Amazon MWAA now supports Apache Airflow version 2.7 and deferrable operators](#)

[Amazon OpenSearch Service introduces Neural Search](#)

Topic || Application Integration

[Amazon SQS announces support for JSON protocol](#)

[Amazon SQS announces Amazon EventBridge Pipes console integration](#)

[AWS Lambda supports faster polling scale-up rate for Amazon SQS as an event source](#)

[Amazon SNS increases default FIFO topic throughput by 10x to 3,000 messages per second](#)

[Amazon EventBridge now supports over 20 new Amazon CloudWatch Metrics for event buses](#)

Topic || Compute

[AWS Lambda enhances auto scaling for Kafka event sources](#)

[AWS Lambda adds support for Amazon Linux 2023](#)

[AWS Lambda makes it easier to troubleshoot errors and timeouts of Init and Restore phase](#)

[AWS CodeBuild now supports AWS Lambda compute](#)

[Amazon EKS Anywhere now supports self-service Enterprise Subscription purchases](#)

[Amazon CloudWatch Container Insights launches enhanced observability for Amazon EKS](#)

[AWS Fargate now enables Amazon ECS tasks to selectively leverage SOCI](#)

[EC2 Image Builder adds Amazon Linux 2023 and Ubuntu 22.04 LTS managed image support](#)

[AWS adds ability for shared Windows AMIs users to enable faster launching](#)

[AWS Batch array jobs now support array size environment variable](#)

[Deploy SAP applications programmatically using AWS Launch Wizard APIs](#)

Topic || Cost Management

[AWS Cost Management now provides purchase recommendations for Amazon MemoryDB Reserved Nodes](#)

Topic || Customer Engagement

[Amazon Connect reduces telephony pricing across South America](#)

[Amazon Connect reduces outbound telephony pricing across Europe](#)

[Amazon Connect prompts configuration page provides CloudTrail coverage](#)

[Amazon Connect supports Representative Numbers in South Korea](#)

[Amazon Connect now makes it easier to deliver persistent chat experiences for your customers](#)

[Amazon SES now offers 60 days of metric history in Virtual Deliverability Manager](#)

Simon: Topic || Database

[Amazon Aurora Global Database for PostgreSQL now supports write forwarding](#)

[AWS announces Amazon Aurora PostgreSQL Optimized Reads](#)

[Amazon RDS Performance Insights supports exporting dashboards to CloudWatch](#)

[Amazon RDS Proxy now supports RDS Multi-AZ Deployments with two readable standbys](#)

[Amazon RDS Proxy now supports PostgreSQL Extended Query Protocol](#)

[Amazon RDS for MySQL delivers up to 3X higher write throughput at no additional charge](#)

Topic || Developer Tools

[AWS CodeBuild now supports AWS Lambda compute](#)

[AWS Fault Injection Simulator announces scenarios and scheduled experiments](#)

[Announcing next generation Resiliency Scores for AWS Resilience Hub](#)

Topic || End User Computing

[NICE DCV releases version 2023.1 with support for WebAuthn redirection](#)

Topic || Front End Web & Mobile

[AWS Device Farm announces upgraded test environment for Android Devices](#)

Topic || Internet of Things

[Extended Protocol Support for AWS IoT SiteWise Edge through EasyEdge](#)

Topic || Machine Learning

[AWS Audit Manager introduces framework for generative AI on Amazon Bedrock](#)

[Amazon Comprehend launches new trust and safety features](#)

[Amazon Lex introduces Selective Conversation Log Capture for Amazon Lex V2](#)

[Build ML models w/ advanced configurations, gain Model Leaderboard visibility on SageMaker Canvas](#)

Topic || Management and Governance

[AWS Health provides improved visibility into planned lifecycle events](#)

[AWS Control Tower now supports tagging for controls enabled in AWS Control Tower](#)

[Deploy your stack sets faster with ConcurrencyMode in AWS CloudFormation](#)

[AWS Config launches inventory and compliance dashboards](#)

[AWS Service Management Connector introduces AWS Health and AWS Systems Manager OpsCenter integrations in Jira Cloud](#)

Topic || Migration and Transfer

[AWS Application Discovery Service adds support for communication through network proxy](#)

[AWS Application Migration Service supports AWS App2Container Replatforming](#)

Topic || Networking and Content Delivery

[Amazon CloudFront announces unified security dashboard](#)

Topic || Security, Identity and Compliance

[Amazon GuardDuty introduces new machine learning capability to enhance threat detection for Amazon EKS detections](#)

Topic || Storage

[Amazon Elastic Block Store now supports Block Public Access for EBS Snapshots](#)

[Amazon Data Lifecycle Manager adds support for pre-script and post-script automation of EBS Snapshots](#)
